汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
001	O	Knowing human lives are the top priority for drivers, we have to respect the pedestrians whenever we are on the road. Therefore, we have to yield to the elderly, children, and the disabled.	05
002	X	And outstanding driver has to abide by traffic rules. It has nothing to do with driving morals.	05
003	O	If the gasoline is caught by fire, you are required to put out the fire by fire extinguisher, sands or wet blankets and outfits.	05
004	O	Yield and tolerance are the best manifestation of driving morals.	05
005	O	Drivers have to yield to each other when their vehicles approach the lane-merge point on a narrow road.	05
006	O	Greenlight allows drivers to pass through, yet they still have to watch those pedestrians and vehicles who cross streets at red light.	05
007	X	I saw a vehicle in front overturned. No one helped him. I'm running late. Although I see people injured and yelling for help, I just cannot give them a hand.	05
008	O	We check our cars thoroughly before we drive. We make sure our cars are in perfect condition. We always watch for pedestrians and other vehicles. That's how we demonstrate our morals.	05
009	X	The car behind us overtook us just to avoid dusts. I hate dusts, too. That's why I have to overtake the front cars.	05
010	X	Dirty water is all over the road after the heavy rain. I see lots of pedestrians on the roadside but I hate to block the road, that's why I have to speed up and pass through immediately.	05
011	O	You have to watch out for passengers' safety and comfort whenever you start your car, switch shaft, turn and stop your car.	05
012	O	It is immoral to tap the horn and make noise without second thought.	05
013	X	People's vision, hearing, and judgment turn dull after drinking. But, alcohol make people feel good. That's why people can drive their cars after drinking.	05
014	X	My car breaks down on the fast lane. Many cars are passing through. I know my car is heavy causing traffic, but I am running out of time. Therefore, other drivers have to wait for me to repair my car then pass.	05
015	X	I've been driving for many years. I am a skillful driver. That's why I always chat with the others and sing when I drive. That's how I demonstrate my skills and has nothing to do with safety at all.	05

題號	答案	題 目	分類 編號
371	O	Drivers will be fined if they do not use their lights in accordance with the requirements.	02
372	O	If the road is used as a workplace, the perpetrator will be ordered to stop the work immediately and either perpetrator or employer will be fined.	02
373	X	To modify or replace the critical equipment, such as vehicle body, engines, chassis, and electrical system, it is not necessary to request the motor vehicle registration department for inspection.	02
374	O	If any vehicle loaded with goods fail to follow the instructions shown on the signs, marking lines, signals and not to drive through scale to check their weights within 1km before load meter station, the drivers shall be fined NTD 10,000 and ordered to drive through the scale.	02
375	X	Vehicles approaching the pedestrians' crosswalks not provided with traffic signs may pass through the crosswalks without slowing down thereby avoid traffic congestion.	02
376	O	Those drivers who turn right without compliance to the light at the intersection provided with traffic light will be fined NTD600 ~ 1,800.	02
377	O	Those drivers who have reached age 60 have to proceed to the hospitals certified by the central health authority for physical examination once a year. They will be allowed to renew their drivers' licenses if their physical conditions pass the evaluation.	02
378	O	Drivers who drive vehicles without driver's licenses and violate the Directives Governing Penalties for Violation Against Traffic Rules are subject to penalties and their driver's licenses shall be suspended. Furthermore, they are prohibited from taking driver's license test within the suspension periods.	02
379	O	The owners of motorcycles, passenger sedans, small vehicles for both passengers and goods, and small trucks are required to submit the burglar-proof certificates issued by the vehicle manufacturers, agents or importers and approved by the Ministry of the Interior before they apply for license plates.	02
380	O	Vehicles owners may not attach any decoration onto the vehicle body, and may not spray any color or glue any tape on the lights, either.	02

題號	答案	題目	分類編號
381	O	On the roads provided with separation lines dividing slow lane and fast lane, the vehicles with 4 or more wheels may not use the slow lane, unless the drivers of such vehicles are starting their vehicles, intend to make turns, intend to park their vehicles or park their vehicles temporarily. Nevertheless, drivers may not use slow lane under any circumstance if the roads are provided with safety islands diving the slow lane and fast lane.	02
382	O	Drivers may not park their vehicles on the curves, slopes, narrow roads, channelization lines, safety islands or any road under repair.	02
383	O	ETC shall be exclusively used by the vehicle to which such ETC is registered. No driver may use the ETC roistered to other vehicle.	02
384	O	ETC users are required to check their ETC status (battery functionality, balance of prepaid fees, etc.) before they use the freeway to make certain that the toll-fees are to be deducted from the balance. ETC users are required to pay the toll-fees at the regular toll-lanes if they are aware that no money can be deducted from their ETC.	02
385	O	Vehicles equipped with ETC are required to either pay cash or turn in toll-fee tickets when they driver through the regular toll-fee lanes.	02
386	X	Vehicles without ETC driving through ETC lanes shall not be fined.	02
387	X	On freeway, the heavy motorcycles with total exhaust more than 550 cubic centimeters are allowed to either drive side by side or overtake one another on the same lane.	04
388	O	On freeway, the drivers of heavy motorcycles with total exhaust more than 550 cubic centimeters are required to wear the standard safety helmets.	04
389	O	On freeway, the heavy motorcycles with total exhaust more than 550 cubic centimeters are required to be provided with the tires with treads deeper than 1mm.	04
390	O	On freeway, the heavy motorcycles with total exhaust more than 550 cubic centimeters are required to turn on their headlights anytime.	04
391	O	“Safety margin” shall mean the limit of buffer for drivers to prevent the accidents caused by negligence from happening.	01
392	O	Abiding by “safety margin”, drivers take all concrete measures to protect their driving safety from any person, any vehicle.	01
393	O	“Steady driving” shall mean not to start moving abruptly, to make turns a little bit slower, not to speed up, not to change lane abruptly, to keep safety distance, not to step on brake abruptly, not to fight for the lanes, and not to drive through red lights.	01

【英文】

題號	答案	題 目	分類 編號
394	O	Prior to driving, drivers are required to adjust their seats and adjust the left, right rear mirrors, and the interior mirror to the most appropriate positions, and wipe the mirrors, so they can watch the surrounding areas clearly.	01
395	O	Do not look too far when drivers start their vehicles. They are required to increase vision distance as the vehicle speeds increase.	01
396	O	The rear vehicle are required to keep safety distance, which is longer than the parking distance, to the front vehicle.	01
397	O	Following the front vehicle too closely, changing lanes without second thoughts, changing lanes abruptly for marking turns, and speeding are the main reasons behind accidents.	01
398	O	Reaction distance shall mean the countermeasures taken by drivers upon identifying a situation when their vehicles are moving on roads and the distance moved by their vehicles within the response time.	01
399	O	The longer the shaft distance and wheel distance, the larger the minimum U-turn radius.	01
400	O	Vision shall mean the limit of drivers' awareness of the objects on both sides when they look at the front.	01
401	X	The faster the speed, the larger the driver's vision. Therefore, the objects in the distance are more apparent to drivers.	01
402	O	The faster the speed, the narrower the driver's vision.	01
403	O	Roads become slippery in the raining days. It is easy to get into accidents when drivers make turns abruptly or stop their vehicles abruptly in the raining days. Therefore, drivers are required to drive carefully.	01
404	O	If vehicles are turning and drivers find their tires skidding, they must not step on brakes. The safest measure under such circumstance is to release the acceleration pedal.	01
405	O	If vehicles are moving forward and drivers find the vehicle tails are skidding to the right, they are required to move the steering wheels slightly to the right in order to modify the vehicle's movement.	01
406	X	Drivers may leave the children in the vehicles alone. They are required to get off the keys and lock the doors before they leave their vehicles. However, they may not leave their vehicles longer than 20 minutes.	01

汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
407	O	If drivers cause accidents and result in either injuries or death, drivers are required to take the first-aid measures immediately, comply with legal requirements regarding accidents, and notify police authority to process the accidents. Drivers may not remove their vehicles and anything related to the accidents. If the accidents cause injuries and all parties related to the accidents agree, however, drivers may mark the location of vehicles on the road surface and remove their vehicles in order not to block the traffic.	01
408	O	Most accidents are caused by drivers' negligence, errors, and bad driving habits.	01
409	X	If I have nothing to do with an accident, I should get out of the accident site immediately without calling the police.	01
410	X	If accident liability remains undecided, the parties related to such accident may request either police authority or motor vehicle registration department for assessment of such accident.	01
411	O	If the parties related to the accident intend to contest the assessment made by the accident assessment commission, they may request the review commission for review within 30 days after they receive the assessment opinions.	01
412	X	If drivers take flu medicine or tranquilizers, they still can drive as long as the medicine or tranquilizers do not affect their physical condition.	05
413	O	Alcohol weakens drivers' visions and sports reflexes thereby causes accidents to happen.	05
414	X	Alcohol weakens drivers' reaction and improve their visions.	05
415	X	Children are required to be seated in the front seats of the passenger sedans.	05
416	O	To lend vehicles or motorcycles to friends for use, the owners are required to make certain whether such friends possess driver's licenses, whether such friends' physical conditions and mental conditions are normal, and disclose the vehicle or motorcycles' status to such friends fully.	05
417	O	After vehicles are filled up with gasoline, the gasoline tank covers shall be tightened in order to minimize the loss of fuel caused by evaporation and, meanwhile, keep the gasoline free from contamination.	05
418	O	After vehicle move into gasoline stations, drivers are required to turn off engines and may not smoke, may not dial or answer cell phones in order to prevent any accident from happening.	05

汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
419	O	To open gasoline tank, drivers have to be aware of the pressure inside the tank. Therefore, drivers are required to turn the cover counter-clockwise half , wait for the “shi-shi” sound goes off, and turn the cover in order to protect themselves from the fuel spraying out of the tank.	05
420	O	After vehicles are filled up with gasoline, drivers are required to fasten the tank cover and turn it clockwise until they hear the ratchet sound.	05
421	X	Prior to driving, student drivers are not required to check vehicles, because the instructors have to check the vehicles.	05
422	O	If drivers find their headlight beams reach farther at night, that means the vehicles are moving downhill.	05
423	O	If drivers turn off engines when their vehicles are moving downhill, the power steering wheel and the brake turbocharger will be unable to function normally and thus cause accidents.	05
424	X	Drivers are required to use the foot brakes and refrain from using engine brake when their vehicles are moving down a long slope.	05
425	O	If drives can use engine brakes properly when their vehicles are moving down a long slope, they can drive safely and their vehicles will be less likely to break down.	05
426	O	When vehicles are moving down a long slope, drivers are required to switch to a low-speed shift, use engine brakes properly, and not to use foot brakes excessively.	05
427	X	Automatic vehicles outperform the manual gearbox-vehicles with respect to the performance of engine brakes.	05
428	O	Vehicles moving uphill may not proceed snakily, and may not turn off engine when moving downhills.	05
429	X	When vehicles are moving in an area comprising both uphill and downhill, gear-2 is an ideal selection for moving uphill and gear-3 or gear-4 is the best choice for moving downhill. Thus, the vehicles save fuel and the drivers save time.	05
430	X	Drivers may use overdrive gear (O/D) as engine brake.	05
431	O	The more frequent vehicles accelerate and decelerate speeds, the more exhausts discharged by vehicles.	05
432	O	Stepping on fuel pedals abruptly is likely to waste fuel and discharge more exhausts.	05
433	X	The faster the speed, the more fuel saved by vehicles.	05

汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
434	O	With the same speed, the low-speed gear outputs more torques than the high-speed gear does.	05
435	X	Drivers do not have to abide by the speed limit shown on the signs or marking lines.	05
436	X	If drivers start vehicles abruptly, they don't have to spend so much time for driving at low-speed and, at the same time, they can save some fuel.	05
437	O	In consideration of safety and eco-friendliness, drivers are required to maintain their speeds steady, do not accelerate nor decelerate speeds abruptly, and keep safety distance at all times.	05
438	X	Accelerating abruptly and braking abruptly consume more fuel and cause the tires and brake pedals wear out faster, plus a higher chance for accidents. However, accelerating abruptly and braking abruptly have nothing to do with pollution whatsoever.	05
439	O	Drivers may not decelerate speeds abruptly unless they really have to reduce speeds due to emergencies.	05
440	O	Drivers are required to check left firstly and check right secondly when they drive through an intersection without traffic control.	05
441	O	If drivers find accidents on the road and police officers have arrived at the accident site, drivers are required to leave the accident site right away, do not stay there and watch the accident site out of curiosity.	05
442	O	If drivers are approaching an intersection and find the traffic lights provided in an intersection has turned yellow, they had better step on the brake pedals lightly to reduce speeds gradually thereby alert the vehicles behind them and prevent car crash from happening.	05
443	O	Drivers are required to use brakes as early as possible and refrain from braking vehicles abruptly thereby protect their passengers and themselves from car crash.	05
444	O	Small vehicles had better not to follow the large vehicles. Otherwise, their visions are likely to be blocked and they are unable to react if any emergency takes place in front of them.	05
445	O	Prior to starting vehicles, parking, changing lane, and making turns, drivers are required to turn on direction lights in order to alert other vehicles and pedestrians.	05
446	O	Prior to turning their vehicles, drivers are required to check the rear mirrors and turn their heads around to check if it's safe. They may turn their vehicles only when they are certain that there is no safety concern at all.	05

汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
447	X	Vehicles are provided with left and right rear mirrors that allows drivers to check the objects on both sides and in the rear. Drivers have to turn on direction lights and check the rear mirrors before they turn their vehicles or change lanes. Therefore, drivers do not have to turn their heads to check around at all.	05
448	X	If drivers intend to turn left, they are required to either turn on direction lights or use their arm signals when they have reached the intersection. Then, drivers change to the inner lane or the left-turn lane and turn left at the intersection. They may not use the lane of opposite-direction to turn left.	05
449	O	When the left-turn light is on, drivers are required to either turn left or make U-turn slowly thereby prevent accidents from happening.	05
450	X	At the intersection, vehicles waiting for turning left may do so as soon as the traffic light turns greens.	05
451	X	Vehicles on the lane designated for left-turn vehicles exclusively may go straight ahead instead of turning left, if the drivers change their minds in the last minute.	05
452	O	Vehicles on the roads are required to watch the motorcycles in front of them thereby protect themselves from the accidents caused by such motorcycles turning left suddenly without any warning.	05
453	O	Green light simply tell you to move, but it doesn't ensure safety for you. Therefore, you really have to slow down when your vehicle reaches an intersection.	05
454	X	To start a vehicle parked on the roadside, drivers are required to watch the movement of the front and rear vehicles. They do not have to turn on direction lights at all.	05
455	X	Prior to overtaking the front vehicle, drivers are required to turn on the right direction light.	05
456	O	To overtake other vehicles on a double-direction road provided with separation line, drivers are required to watch the timing of overtaking and the distance required by the overtaking. The longer they stay on the opposite-direction lane, the more likely the accidents happen.	05
457	O	Drivers are required to allow sufficient time and space for turning, crossing lane, and overtaking.	05
458	X	Prior to overtaking, drivers had better switch to a faster-speed gear in order to maintain the acceleration at the best condition.	05

汽車法規是非題

【英文】

題號	答案	題目	分類編號
459	O	Drivers are required to decelerate speed when their vehicles are turning. If drivers feel that they have to step on brake pedals, that means they did not decelerate before turning vehicles.	05
460	X	Drivers may go ahead and change lanes or turn their vehicles without turning their direction lights, if they are in a hurry.	05
461	O	An outstanding driver always use the most appropriate speed and drive steadily to change lane.	05
462	X	Drivers may change lanes in the double-white solid-line area for the convenience of turning either left or right.	05
463	O	If drivers, prior to reversing their vehicles, are uncertain if there is any safety concern behind their vehicles, they are required to leave their vehicles to check behind the vehicles personally.	05
464	O	Drivers are required to park their vehicles in the shaded area and refrain from resting in their vehicles for a long time with air-conditioners turned on. Otherwise, they might consume fuel unnecessarily and could place themselves in danger.	05
465	O	After vehicles are parked, drivers and passengers are required to check if there is any vehicle or pedestrians coming form behind. They may not open the door and leave the vehicles immediately.	05
466	O	Always be careful to open and close doors. Check if there is any obstacle nearby and watch carefully if there is any vehicle or pedestrians coming. Then, open the door in two stages and get on or get off the vehicles.	05
467	O	Always watch for vehicles coming from behind when you open the door and get on or get off the vehicles thereby prevent accident from happening and ensure driving safety.	05
468	O	After vehicles are parked on the roadside, make certain no vehicle coming from behind especially motorcycles, then you can open the door.	05
469	O	In consideration of eco-friendliness, vehicles may not be idle more than 3 minutes thereby protects the environment by reducing the exhausts. Violators are subject to penalties in accordance with the requirements stipulated in the Air pollution Prevention Act.	05
470	O	When vehicles are driving through a long tunnel and drivers find fire in the tunnel, they are required to pull their vehicles to the roadsides immediately and find a safe area for evacuation. Drivers may not lock the doors and are required to leave the keys in their vehicles.	05

汽車法規是非題

【英文】

題號	答案	題目	分類 編號
471	O	If drivers have to turn their steering wheels for more than half circumference, they must do it with both hands without any stop.	05
472	O	If any tire blasts suddenly when vehicles are moving, drivers must hang on to the steering wheels, keep the vehicles moving straight ahead, and release the acceleration pedals.	05
473	X	Vehicle's braking performance remains unchanged even if the vehicles have moved through a flooded area.	05
474	X	Drivers must step on clutches slowly and release the clutch quickly, step on brake pedal quickly and relapse the brake pedal slowly.	05
475	X	On the freeway, the automatic vehicle drivers may use the lowest-speed gear all the way. The shift stick will find the most appropriate gear automatically. Thus, drivers may rest assured. There is no problem at all.	05
476	X	The freeway is straight up all the way with flat road surface. Therefore, drivers may keep their mental condition and physical condition normally.	05
477	O	The purpose of safety in section and regular maintenance & inspection is to ensure driving safety and to reduce the driving costs thereby help drivers minimize their pressures.	05
478	O	Always make certain that the hood is fastened after the safety inspection is completed. Then, you can drive your vehicle safely and the hood will not go off suddenly.	05
479	O	Prior to driving, always check the water tank, battery fluid, oil, and brake oil meet the safety standards. Also, drivers must check if the belts are in perfect condition before they drive.	05
480	X	Drivers do not have to check the mechanical parts before they drive. But, they have to pay attention to the dashboard at all times thereby ensure driving safety.	05
481	O	Drivers are required to arrange maintenance and checkup in accordance with the mileage or the maintenance schedule required by the original manufacturers, in addition to the inspections required by the motor vehicle registration department.	05
482	O	Before driving, drivers had better check the engine oil and make certain that the oil level falls within the oil-meter's scale. The excessive oil causes the engine to waste fuel.	05
483	O	Drivers must park their vehicles on a flat ground before they check the oil level.	05

汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
484	X	When vehicles are on the slopes, drivers may pull out the oil-meter to find out the oil quantity and the oil level.	05
485	X	Drives are required to check the engine oil quantity and oil quality after the engines are started.	05
486	X	Drivers may check the oil level as soon as they turn off engines.	05
487	O	If drivers change engine oil regularly, that will extend the service life of the engine.	05
488	O	Too much engine oil will cause spark plug coking, wasting fuel, and lower horsepower.	05
489	O	If engine oil turns creamy, that means the cooling water has been mixed with the oil, the engine has to be repaired.	05
490	O	The brake oil level has to be higher than the MIN scale and lower than the MAX scale. Drivers are required to add brake oil whenever necessary. Only use the same brand of brake oil with same specifications.	05
491	X	If brake oil level always drops below MIN scale, all you have to do is to add brake oil. There is no need for repair.	05
492	O	If drivers find the brake oil running short, they must replenish brake oil immediately.	05
493	X	If drives can add brake oil more than the MAX scale and slam on the brakes forcefully to lock the tires, that is the best performance of brakes with the shortest braking distance.	05
494	O	The coating will be damaged when brake oil is sprayed on it. If drivers happen to spray brake oil onto the coating, they must rinse the coating with tap water immediately.	05
495	O	If driver fell the brake pedal soft when he steps on it, probably because there is either air or leaking oil in the brake pipe. Drives must stop vehicle immediately and repair the brake.	05
496	O	Brake oil, power steering oil, and transmission oil are toxic substance, and have to be stored in the containers with proper identifications out of children's reach.	05
497	X	If the power steering system is leaking oil, there is no way to turn the steering wheel at all.	05
498	O	The battery trailer coupling with larger diameter stands for the positive, the coupling with smaller diameter for the negative.	05

汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
499	O	If drivers can maintain the battery fluid level to the appropriate height, that will increase the service life of the battery.	05
500	O	If battery fluid is running short, drivers must add distilled water into the battery.	05
501	X	If battery fluid is running short, drivers must add mineral water until the fluid level rises to the designated height.	05
502	O	The highly corrosive battery fluid is made of diluted sulfuric acid. If your skin, eyes, or clothes is dipped with battery fluid by accident, you must rinse it with clean water immediately.	05
503	X	In the darkness, you may use a cigarette lighter to check the battery trailer couplings and the water tank cover.	05
504	O	If vehicles are mounted with too many electric appliances, that will cause the engine to consume more fuel than usual.	05
505	O	When the battery is running low and you intend to use another battery for backup, you should use + electrode connection + electrode, an electrode connects to the undamaged spot of the malfunctioned vehicle.	05
506	X	Even if the windshield sprinkler is out of water, you still can use the sprinkler.	05
507	O	The dashboard is provided with “mileage meter” that records the vehicle’s mileage.	05
508	X	The dashboard is provided with “mileage meter” that records the engine’s rotations per minute.	05
509	O	The dashboard is provided with “engine rotation meter” that indicates the engine’s rotations. When the meter points to 1, that means the engine rotates 1,000 times every minute.	05
510	X	The engine’s cooling water thermometer provided in the dashboard does not reflect the changes of the temperature outside the car.	05
511	O	If the “cooling water temperature meter” points to the abnormal range, drivers must pull vehicles to the roadsides immediately. If the continue to drive, that will cause severe damages to the engine.	05
512	O	When engine temperature rises, the temperature meter points to H.	05
513	X	Drivers may check the cooling water and the water leakage only when the engine is under normal temperature.	05
514	O	When engines are heated, do not open the water tank cover. Otherwise, the highly heated fluid will spray out of the tank and cause drivers to be burned severely.	05

汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
515	X	If drivers intend to check if the cooling water is sufficient, they must start the engine and turn it off several minutes later, then they can open the water tank and check the water level.	05
516	X	As to the cooling system, as long as the secondary water tank is full, there is no problem. It's not necessary to check the master water tank at all.	05
517	X	The cooling water contains either anti-freezer or anti-rust agent. It's not necessary to change the cooling water.	05
518	X	If drivers find the water temperature meter pointing higher than the ceiling, they must pull the vehicles to the roadsides, pull the manual brake, turn off the engine immediately, and then open the water tank to check the water level.	05
519	O	Prior to starting the engines, drivers must check the cooling water level and the oil level.	05
520	O	If the water-cooled engine has run out of cooling water, you may not start the engine.	05
521	X	Engines will not be overheated as long as there is sufficient cooling water in the tank.	05
522	O	If the windshield sprinkler runs out of water, the sprinkler motor is likely to be damaged. If you use the wiper at this time, the wiper will scratch the windshield easily.	05
523	X	If the "fuel indicator" has dropped to E and the orange "low fuel indicator" has been turned on, you don't have to fill up the fuel tank right away. You can wait until you reach the destination.	05
524	X	When fuel indicator points to E, that means the fuel tank is full.	05
525	O	After the engine is started, the generator supplies power to all electric devices installed in the vehicle.	05
526	O	If drives on the road find the charging indicator turned on, that means the charging system is out of order.	05
527	O	If driver on the road find the brake warning light turns on suddenly, they must pull their vehicles to the roadsides immediately, turn off engines, and wait for rescue.	05
528	O	The ABS braking system allows drivers to brake and turn their vehicles normally when they have to stop vehicles due to emergency.	05

汽車法規是非題

【英文】

題號	答案	題 目	分類 編號
529	O	With the computer-controlled ABS braking system, the brake pedal vibrates when drivers step on the brake pedal at the time that the vehicles are moving at high speed. The vibration is considered normal for the ABS braking system.	05
530	O	To brake the vehicles moving at high speed, drivers have to control the steering wheels calmly. They have good chance to escape the obstacles if their vehicles are provided with ABS braking devices.	05
531	O	If you open the on board compartment cover, you must close it immediately thereby protect passengers from the injuries caused by the emergency braking.	05
532	O	You must not keep the unnecessary objects in the vehicles. Thus, you can reduce weights for your vehicles, save fuel, save money and, most importantly, protect the environment.	05
533	O	Drivers on the road must not adjust their seats. The sudden movement of seats will cause the vehicles out of control.	05
534	X	If drivers on the road feel their seats not comfortable, they may adjust their seats while they are driving.	05
535	X	Drivers may remove the front seat headrest in order not to obstruct the back seat passengers' visions.	05
536	X	You may hold baby on your knees and wear the safety belt. It's safe for you and, at the same time, you can protect the baby.	05
537	X	It doesn't affect safety if two children use one safety belt.	05
538	X	The safety belt presses my chest and makes me uncomfortable. If I stretch my arm to bypass the belt and keep the belt at my armpit, I am still protected by the safety belt, but I don't have any pressure at all.	05
539	O	If the safety belt is either worn out or damaged, you must change a new one.	05
540	O	After a vehicle is crashed, all safety belts, including the contraction device and accessories, have to be changed.	05
541	X	Passengers in a vehicle provided with airbag do not have to wear safety belts.	05
542	O	To start an automatic vehicle, drivers have to step on the brake pedal before they move the shift stick thereby ensure the vehicle under their control.	05
543	O	To drive an automatic vehicle, drivers must move the shift stick to P when they start the engine.	05

汽車法規是非題

【英文】

題號	答案	題目	分類編號
544	X	To drive an automatic vehicle, drivers must move the shift stick to D in order to activate the starter-motor.	05
545	X	To drive an automatic vehicle, drivers are required to move the shift stick anywhere other than either N or P in order to start the engine.	05
546	X	When an automatic vehicle is moving, drivers may switch the shift stick to either P or R anytime.	05
547	O	To park an automatic vehicle, drivers have to wait until the vehicle stops completely before they switch the shift stick to P.	05
548	O	Drivers have to wait until their vehicles stop completely before they switch from gear D to either gear R or P.	05
549	O	To drive an automatic vehicle down a steep slope, drivers must switch to a lower-speed gear.	05
550	O	Drivers must check the tires before driving, especially the tread depth and tire pressure.	05
551	O	Tire pressures have to be checked regularly (including the spare tires). Each car requires different tire pressures. Therefore, drivers have to inflate their tires to the rating stated in the user's manual.	05
552	X	If tire pressure increases, vehicle consumes less fuel. Nevertheless, tire pressure has nothing to do with the braking performance.	05
553	O	If tire pressure drops, vehicle consumes more fuel and, furthermore, tires are likely to blow up after driving a long time.	05
554	X	When the tire's treads are worn out excessively, it doesn't affect deriving safety at all.	05
555	O	When you start the engine, do not use the starter-motor more than 10 seconds. Otherwise, you might cause damages to the battery and to the starter-motor.	05
556	O	Do not use the starter-motor to start the engine longer than 10 seconds. If you cannot start the engine, you should wait for 10 seconds before you start the engine again. Otherwise, the starter-motor might be damaged.	05
